PROFESSIONAL SUMMARY

Results-driven Data Analyst skilled in Python, SQL, Excel, Power BI, and Tableau with expertise in ETL pipelines, data visualization, and business intelligence. Experienced in data cleaning, exploratory data analysis (EDA), and predictive analytics to optimize workflows and support data-driven decision-making. Adept at building automated dashboards, KPI tracking, and statistical analysis to deliver actionable insights. Strong communicator capable of translating business requirements into analytical solutions.

EDUCATION

Ajay Kumar Garg Engineering College

June 2023

B.Tech - Electrical, 7.71 CGPA

SKILLS SUMMARY

- **Languages:** Python, SQL, MySQL
- **Frameworks / Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Tools:** Power BI, Tableau, Excel, Power Query, Git
- **Platforms / Databases:** Jupyter Notebook, VS Code
- **Analytics:** Data Cleaning, EDA, ETL Pipelines, KPI Tracking, Statistical Analysis, Data Warehousing, Dashboard Development, Business Intelligence, Data Reporting

WORK EXPERIENCE

Dataman Computer Systems — Data Analyst Intern

Jan 2025 - Jun 2025

- Cleaned and validated 1M+ rows using Excel and MySQL, reducing data errors by 30% and improving reporting accuracy.
- Conducted exploratory data analysis (EDA) in Python to uncover trends and provide actionable business intelligence.
- Built automated Power BI and Tableau dashboards integrated with ETL pipelines, reducing manual reporting time by 40%.
- Collaborated with cross-functional teams to align reporting frameworks, improving planning accuracy by 15%.

PROJECTS

E-Commerce Sales Analysis — Python, MySQL, Power BI

Dec 2023 - Feb 2024

- Developed a normalized MySQL database and ETL pipeline integrating multiple data sources.
- Cleaned 50K+ records using Pandas and performed statistical analysis to uncover customer segmentation and revenue trends.
- Built interactive Power BI dashboards for KPI measurement and improved sales forecast accuracy by 15%.

Supply Chain Performance Analysis — Python, Tableau, Excel

Sept 2023 - Nov 2023

- Analyzed shipping variance, delivery time, and profit margins to optimize logistics.
- Built Tableau dashboards with predictive analytics to identify bottlenecks.
- Reduced delivery delays by 20% and improved operational efficiency.

Zomato Restaurant Analysis — Python, MySQL, Power BI

Mar 2023 - May 2023

- Designed a relational schema and ETL pipeline to clean and load data into a cloud database.
- Performed SQL-based market trend analysis on cuisines, pricing, and order patterns.
- Delivered multi-page dashboards providing executive summaries and granular insights.

CERTIFICATES

- Simplilearn - Python Programming, Python Libraries, SQL Development (2024)
- Ducat - Data Analytics Using Python, ETL & Data Warehousing (2025)
- Deloitte via Forage - Data Analytics Job Simulation, Business Metrics Analysis (2025)
